

Dear Hiring Manager,

With this letter, I would like to express my interest in working an internship at Bosch.

Bosch' s Regional Marketing internship is exactly what I look for as a Business student majoring in Marketing. My experience as a Production Supervisor in AK Industries (Plywood Production facility) has influenced in my ability to communicate with clients and co-workers efficiently. Attending international product launches and planning events were part of my previous job. Background from my previous education has guided me in learning MS Office skills like Word and PowerPoint.

I hereby express my deep passion to work in a diverse, appreciated and successful company like Bosch who has been developing innovative solutions for future generations for the past 125 years.

If you would like more information or would like to schedule an interview, please contact me - +4915214682669 I can also be reached via E-mail at vishnuanilkumar19@gmail.com Thank you for your time and consideration.

Sincerely,

Vishnu Anil Kumar
